ON REMOVING RESTRICTIONS

CHICKASAW INDIANS PLEAD FOR
REMOVAL FROM LANDS.

WILL SHARE EQUAL TAXATION

Would Sell Surplus Allotments of Full Bloods to Secure Funds to Improve Homesteads and be Equipped for Farming.

The Chickasaw Indians through their representatives which they will send to Washington, propose to apply to congress to have legislation passed to have restrictions removed from the lands of the mixed bloods, and from the surplus allotments of the full bloods upon a proper showing. The Chickasaw Indian wants to bear his just share of taxation to support the government, and wants to secure funds to improve his homestead and better equip himself for farming. The committee that is going to Washington at this time of congress not only proposes to apply to have restrictions removed, but are going to bring pressure to bear to endeavor to secure a settlement of the affairs of the nation and the money that is coming to the individuals divided up, so that it can be used in improving the property of the man who owns it.

The Chickasaw Indians are members of a tribe that are civilized and do not need the protecting arm of the government, the national government, and a number of representatives in the halls of congress have already in their over zealousness put the Indian in a worse shape than he would have been in, had affairs been handled otherwise. A number of the wise people who live in Washington and do not understand conditions in this section of the country are making bad matters worse by passing such bills as the McCumber amendment which puts the Indian at the mercy of the grafter.

In speaking of the recent unearthing of frauds perpetrated on the Kickapoo, and the announcement made by Senator Curtis of Kansas, about his opposing the removal of restrictions, Frank O. Smith, a prominent member of the Chickasaw legislature has the following to say: "I am not the only one member of the tribe that favors the removal of restrictions on the sale of the surplus allotments of the full bloods, and the allotments of the mixed bloods, but almost every individual member of the nation is with me in the appeal that we are going to make to congress."

"The Chickasaws are among the richest Indians in the new state but the Chickasaws are deriving no benefits from the money that they have which is locked up in the vaults of the department of the interior. Instead of the new corner seeing well kept farms, and neat farm houses of the Indians, as he should see, he sees the Indian dwelling in huts hardly fit for human habitation, and with barely enough clothes on to hide his nakedness, and with hardly enough to eat in their cupboard, all on account of the over-zealousness of the department and a few zealots at Washington. Instead of our having good schools like we formerly conducted under the tribal form of government, we have shallow school teachers poorly equipped for the business."

"McCumber, I expect thought he was making a wise move when he introduced his amendment and passed the law regarding the removal of restrictions, which has acted as a boomerang in the matter and instead of acting as a protection to the Indians has been a detriment, and has placed the Indian in the hands and control of the grafter. The Indian can only sell part of his land at the time, but the law does not state what part and the grafter usually purchases that section of the property allotted to the Indian which is improved and may be in the center of the tract of land, and leaves the Indian the outskirts, which he has to sell the grafter as soon as restrictions are removed on another section."

"Senator Curtis, in his zeal to protect all Indians, loses sight of the fact that the Kickapoo Indians who were swindled were blanket Indians, and that it has been but a few years since many of the tribe have discarded the blanket for citizens clothes and have ceased to live in teepees

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

The Bradford Regulator Co., Atlanta, Ga.

Mother's Friend

whereas the Chickasaws from almost time immemorial have been civilized and lived in homes, and followed avocations of peace by tilling the soil.

"We, the Chickasaws and Choctaws do not need the ever watchful care of Senator Curtis and a few others who do not understand the situation in this section. We are not like the Kickapoo, Cheyenne, Arapahoe, and Comanches, but know how to protect ourselves, and if we do not then the laws of the land will. We want to bear our just burden of taxation because it is right. Statehood is here, and we do not purpose to create race hatred by not bearing our share of the taxation which will be sure to follow, if we do not."

"We want to sell our surplus so as to improve the homestead and purchase suitable farming utensils, and unless we can sell our lands to improve the homesteads, we will not be able to do anything."

Why Colds are Dangerous.
Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Every one knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by F. J. Ramsey and Hoffman & Co. w

Attorney for non-resident, S. H. Butler.

First published October 25th, 1907.

Strangers who try to get into the British House of Commons by the members entrance must be smart if they deceive the policeman who jealously guards the gates. Rufus Isaacs, M. P., relates how he found "bobby" too sharp for him when, as a young lawyer, he once marched boldly through the yard with the idea of reaching the floor of the house. He succeeded in getting past the policeman on duty, who, however, detected him a second or two later and overtaking him, confronted him with the question, "Excuse me, sir, but are you a member?" "Not yet," was the reply, "but I am going to be soon." "I hope you will sir," said the policeman, "but meanwhile would you mind going around the other way?" "That meanwhile," added Mr. Isaacs, "lasted twelve years."—Exchange.

SULPHUR BUDGET.

Epworth Board to Get Busy—Rev. Riley a Dramatic Preacher.

Sulphur, Okla., Nov. 23.—At the annual conference of the M. E. church, south, recently held at Durant, the election of the new board of control of Camp Epworth by the League conference held in Sulphur last June was confirmed. The plans of the new board for the improvement of the Epworth League encampment grounds at Sulphur were approved, and the board instructed to get busy. Great preparations will be made for next summer's encampment.

Rev. R. W. Cummins of this city is president of the board. J. Lee Frank Fields, also of Sulphur, is secretary.

Rev. J. R. Riley, pastor of the First Methodist church of Sulphur, was sent by the conference to Stillwater. Rev. Riley has twice filled the pulpit of the First Methodist church of this city. He has proved himself one of the attractions of this resort. He is an actor in the pulpit. His classical education and his unusual style of pulpit oratory together with his dramatic manner of description, caused the health and pleasure seekers as well as the citizens of the town to scramble for standing room to hear him. His descriptive sermons attracted such large audiences that it became necessary for his church to secure the large Harper opera house. During the entire year he has used the stage for his pulpit. Rev. Wiley was a lawyer before he entered the ministry. He is a first cousin of James Whitcomb Riley, the Hoosier poet.

Rev. E. D. Cameron, state superintendent of schools, will continue to reside in this resort during his term of office. He is pastor of the First Baptist church. His church refused to accept his resignation. Rev. Cameron was a lawyer before entering the ministry. He is an able pulpit orator.
